Pros - Looks beautiful, has multiplayer, and is a graff sim.

Cons -

1. Spray pressure physics are WAY off and not realistic at all.
2. You only have the option between 3 pressures and 3 caps...
3. Menu interface is not well designed and rather confusing.
4. Almost no wall room to paint on. I finish 3 letters and I'm done. You can't paint anywhere in the level, only on a designated wall... Thats not graffiti...
5. Left handed???

. An astoundingly good interactive novel, perhaps the best yet released by Choice of Games. It is longer than most games yet manages to avoid dragging on even slightly. The subject matter is fresh, even if 19th Century England is not, and the story it tells is captivating from start to finish. I enthusiastically recommend this novel, above any other you can find on steam, if only because the writer tells a wildly intricate tale with characters that are sincerely motivated and three-dimensional.. Just like Diner Dash, really. It's just instead of a diner, it's a tavern and you serve potions. The higher the level, the more stupid the mayhem is.. 12 people found this review funny

7 of 8 people (88%) found this review helpful. A fascinating game with an engaging story. Some of the puzzles were frustrating though. You could have a correct picture, but made with the smallest incorrect spacing and could therefore not progress until you made the necessary tweak. The animations and audio really brought the game to life for me though and I overall enjoyed the experience of this short, but very interesting story-telling game.

I would recommend to purchase on a sale. Not really quite worth spending too much money on for less than a couple hours of actual gameplay.. Third Rome, an "Immersion" Pack.. This is my first game ever playing on PC, made the change last year from console to PC and don't regret it, graphics are so clean and colorful, Game play is very smooth, no issues at all, still trying to complete many missions, bosses are not that hard but does give you an adrenaline rush. Very recommended.

its nothing like they show u on video. blurry is hell. u dont see the target except a marked red box when to shoot. and when u shoot,u wait seconds even u see the rockets lunches on target coming from diferent angel. the controlling the plane is horrible. dont waist ur money on this one. im still waiting on ace combat 7. there is a bug with heath you know the big hill with the rabbit den sometimes the hole thing dissapears and i drop into water. This not what I backed in the kickstarter. This is a piece of♥♥♥♥♥♥♥♥. 2min 11 sec video....

Why is this on steam store... I assumed this was going to be a collection of all the TI5 footage....but its not.

Still its DOTA so....100 dead peruvians outta 10.. SUCH GOOD HUNT. Great VN! These sorts of games always make me question my choices.. A decent rpgmaker game that is worth playing to the end , has tons of branching options , simple rpg concept and average grinding.

Pros:

- + great unique humour
- + characters actually make you care for them
- + nice soundtrack
- + old-fashioned FF turn-based combat
- + somewhat enticing plot

Cons:

- game tends to crash whenever you start another battle
- length is a bit short
